## HANAMO TO STAY

NO FOUNDATION FOR RUMOR BELLS TO PURCHASE

## ALL OWNED IN COUNTY

Manager Filed Sworn Statement That Merger Is Bona Fide Transaction Without Any Strings.

The consolidation of the Hanamo and Bell telephone lines in Maryville will probably be made about March 1. The Bell line is to be taken over by the Hanamo company. Many new improvements are to be made and a new battery switchboard will be put in so as to have the latest and best service that can be given. It will probably take some time for the Hanamo to put in new phones and arrange the switchboard, but it is probable that it will be done by April 1.

Manager Harry C. Todd of the Hanamo and Attorney George Robb Ellison were in Kansas City Monday morning to confer with Bell officials in regard to arranging the closing details of taking over the Bell property here.

A statement from the Hanamo company to the county council was read at the last meeting of the council and is as follows:

"In view of certain gossip to the effect that in taking the proposed merger of the Hanamo and Bell Telephone companies' exchange, the Hanamo Telephone company will not in good faith buy and become the sole owner of Bell Telephone company's exchange, I desire to submit and file with the honorable body as a record of this letter, verified by my affidavit:

"I desire to state that the contemplated merger said telephone exchanges will be effected, if at all, by the Hanamo Telephone company's purchasing the exchange of the Missouri and Kansas Telephone company, which is one of the associated companies of the telephone system, and paying the value thereof and receiving a rate and unconditional bill of sale for all said property, which will be recorded in this county. There is no agreement between said companies of any sort, verbal or written, expressed or implied, direct or indirect, that the Hanamo Telephone company is not to be the absolute and exclusive owner of said combined exchange. Furthermore, there is no intention or agreement of any kind on the part of said proposed merger, that at some later time, the holders of the Hanamo Telephone company will sell out their stock to the Bell system. In other words, the intention and expectation of the Hanamo Telephone company, if the proposed merger is effected, is to own the telephone business in Maryville, owning and operating the telephone exchange as it has in the past.

"The Hanamo Telephone company is a Missouri corporation, its chief office at Maryville. It is capitalized for \$30,000, and the only holders and the number of shares owned by each are as follows:

J. H. Todd	100 shares
Sylvia E. Todd	100 shares
E. C. Wolfers	100 shares
Sarah E. Wolfers	100 shares
H. C. Todd	100 shares

"We feel that is a home enterprise, owned and operated by home people, who are interested in Maryville's future as much as are you, even, or any other main town, entitled to the same consideration as other citizens of Maryville, we respectfully request the same consideration of you should you would be on the board of aldermen were you elected and interested in the hands.

Vernally yours,  
"H. C. TODD  
"Vice President & General Manager of the Hanamo Telephone Company

## VERY EARLY LENT

NOT FOR MANY YEARS HAS SEASON BEEN SO EARLY.

## THE MOON REGULATES IT

Same Old Moon the Lovers Swear by Controls the Closing Hour of Winter Festivities.

Lent will begin at the earliest date next year that it has in ninety-five years. Maryville citizens who end their social activities with the arrival of Lent need only consult the church calendar to be reminded that this winter the "social season" will be one of the shortest on record, as Lent will be ushered in on February 12, the earliest date since 1818.

The reason for the early arrival of that season of the year when the members of the "social whirl" are forced to lay aside their activities is that the ideal or ecclesiastical moon adopted by the churches hundreds of years ago determines the date for Easter, which next year will fall upon March 23, one day later than the earliest possible date upon which Easter may fall, March 22, says the Creston Advertiser-Gazette. The custom established by the churches decrees that Easter shall fall "on the first Sunday after the first full moon after March 21."

"Easter," a church official said, "and with it, of course, the ending of Lent, is a movable feast and is fixed by the ideal moon, adopted by the churches hundreds of years ago, when they were attempting to settle upon the fixed date for Easter."

So the individuals who bemoan the fact that their social duties will be cut short this winter by the arrival of Easter can blame it on the moon, the same moon that the youth of the land usually pick upon to bear witness to some vow breathed in the air of his lady fair.

May Delay Fixing of Sentences for Labor Union Officials—Judge Has Entire Discretion as to Sentences and Bonds—Krum Says 90 Errors Exist.

Indianapolis, Dec. 30.—The thirty-eight labor union officials convicted of conspiracy and of promoting the McNamara dynamite plots throughout the country today will face the possibility of receiving prison terms ranging from any minimum to a possible maximum of thirty-nine and a half years.

From their temporary cells in the county jail, the prisoners, handcuffed between deputy marshals, will be taken before Federal Judge Albert B. Anderson.

Meantime United States Marshal Edward Schmidt has arranged for a special train to leave by a secret route for the federal prison at Leavenworth, Kan. To prevent possible demonstrations on the way to Leavenworth no details as to the time of departure are to be announced, but it is known the train is to be ready to start as soon as possible after the court pronounces judgment on the thirty-eight men, unless some of the prisoners are allowed their liberty on bonds pending appeals.

Motions for setting aside the verdicts and argument may delay the imposing of sentences until tomorrow. District Attorney Charles W. Miller first will ask for judgments on the verdicts and the motions for setting them aside may require a full day's session.

**Want Liberty on Bonds.**

That every effort would be exerted to gain liberty on bonds while an appeal is pending for some of the labor union officials now in jail, including Frank M. Ryan, president of the Iron workers' international union; Olaf A. Tveitmo, a labor leader on the Pacific coast; Herman R. Kline, a former official of the carpenters' union, and some of the many business agents from a score of cities, was announced by Chester H. Krum, counsel for the convicted men.

Mr. Krum has taken active charge of arrangements for appeals to the circuit court of appeals since Senator Kern left for Washington.

The question of bonds pending appeals is to come up after sentences are imposed. The amounts of the bonds are fixed by the court. Unless the prisoners are able at once to furnish the bonds they must remain in prison. It was stated that the soonest any appeal might be argued would be next April.

"We certainly will appeal in the case of each man," said Mr. Krum. "There are about ninety errors upon which we shall base the petition and we are confident of an ultimate reversal."

"This trial never will be reversed, and the men will serve out the punishments imposed by the court," said District Attorney Miller.

**Near Home of Conspiracy.**

Confined to two tiers of cells, four prisoners to a cell, the men who the government charged engaged in the most widespread conspiracy for the destruction of property in the history of the country, remained within four blocks of the place in which it was charged the conspiracy originated. It was in the office of the International Association of Bridge and Structural Iron Workers, not far from the county jail, where John J. McNamara, secretary of the union, formed the plots and in which dynamite and nitroglycerin were found at the time of his arrest. It was this office from which he was charged with sending Orrie McNamagal and Herbert S. Hookin as paid dynamiters and with starting his brother, James B. McNamara, to carry on the destruction at Los Angeles with the loss of life there.

It was also in the Iron workers' office that many of the men now convicted were declared to have met to discuss the conspiracy and appropriate the union's funds for the purchase of explosives. All but two of the officers of the union, brought from cities scattered from Boston to Los Angeles, are now in jail.

Of the forty officials who stood trial, twenty-three of whom were influential in the councils of the International Association of Bridge and Structural Iron Workers, only two were acquitted. Herman G. Seiffert of Milwaukee and Daniel Buckley of Davenport, Ia. Although the jury was out forty and one-half hours, it took only the shortest possible time to agree upon the guilt of the thirty-eight. But a single ballot was taken on each of these and in each ballot of the thirty-eight the unanimous verdict was "guilty."

**PEACE OUTLOOK BRIGHTER**

Turkish Delegates Expected to Present Modified Terms.

London, Dec. 30.—Notwithstanding apparently insurmountable difficulties attending the successful issue of the peace conference, the prospects look brighter, more because of the changing atmosphere of the conference than on account of any new fact.

In the first place it is stated on good authority that the Turkish delegates will present today modified terms better calculated to afford a basis for negotiations, and in the second place, the allies appear more anxious to come to real business, if it is at all possible. They seem to be nervously apprehensive that they will be deprived of the fruits of their victories by European intervention.

New York, Dec. 30.—One hundred and fifty thousand men, women and children employed in the men's clothing industry in this city were ordered on a strike today by the local executive committee of the United Male Garment Workers of America. Four thousand shops are expected to be affected if the order is obeyed.

Crowds of workers thronged the streets outside the building where the meeting was held and cheered when the strike decision was read to them. Hundreds of persons were prevented by the police from parading through the east side to show their approval of the order.

**CITIZENSHIP FOR PORTORICANS**

Brigadier General Frank McIntyre Points Out Need for Many Improvements in Philippines—Urges Biennial Inspections.

Washington, Dec. 30.—Approval of the extension of vocational education in the Philippines and the immediate grant of American citizenship to those Porto Ricans desiring it, constitute the principal features in the annual report of Brigadier General Frank McIntyre, chief of the bureau of insular affairs. In his annual report, General McIntyre renews the recommendation for congressional action looking to the biennial inspection of the insular possessions by a board of visitors made up of representatives of the executive and legislative branches of the government.

Discussing education in the Philippines and the refusal of congress to extend an appropriation to help in this work, General McIntyre makes no criticism of this attitude on the part of the national legislature, but points out that such financial assistance might "lead to dependence upon this source of revenue and result in complications of a more or less serious character if later this assistance were denied."

"It is estimated," General McIntyre continues, "that probably one-third of the children of school age are now being afforded opportunities to acquire at least an elementary education."

"Improved sanitary conditions, new means of communication, that will open up regions impracticable to reach now, and other public works are not only essential on their own account but will permit educational facilities to be supplied where it is impossible to furnish them now except at unwarranted expense."

As to Porto Rican citizenship, General McIntyre says it is practically the testimony of everyone familiar with conditions on the island territory that the desire for it is the underlying cause of whatever political and social unrest there is on the island.

**WILSON RECEIVES SULLIVAN**

Iowa Democratic Leader Meets Governor En Route From South.

Princeton, N. J., Dec. 30.—With a miniature ship of state in one hand and a basket of Virginia apples in the other, President elect Wilson came home after an all-day ride from Staunton, Va., his birthplace. As a parting gift, the people of his native town gave him a ship of flowers, and amid cheering bade him goodspeed.

At Washington, where the governor's special car stopped an hour, Jerry Sullivan, one of the leaders of the Democracy in Iowa, was received by Mr. Wilson in his stateroom.

Mr. Wilson had invited Mr. Sullivan to join him at Washington and they were together most of the journey from Washington to Princeton Junction. Mr. Sullivan continued on to New York.

"We were just picking up the threads of the situation in Iowa," said Mr. Wilson of his talk with Mr. Sullivan. They had talked over legislative policies, he added. He was asked if he had mentioned cabinet appointments to his Iowa visitor, and answered that he had not.

Mr. Sullivan explained that the object of his call was to learn Mr. Wilson's position on the tariff and the trust questions. "We are interested in the west in the destruction of those trusts that mean death to competition," he said.

**TAFT ON WAY TO WASHINGTON**

Voyage From Colon to Key West Was Made in Sixty Hours.

Miami, Fla., Dec. 30.—President and Mrs. Taft, Colonel and Mrs. Goethals and a number of friends arrived off Key West on the battleships Arkansas and Delaware, after a quick trip from Colon and the Panama canal zone.

The presidential party was brought ashore by the government tug Peoria and started north at noon on a special train over the Florida East Coast and the Atlantic Coast Line railroads. They are due in Washington tomorrow morning.

The voyage from Colon to Key West, more than 1,100 miles, was made in a little more than sixty hours.

President Taft has announced that he will make no appointments to civil positions under the new administration of the canal zone until he returns to Washington. It is practically assured, however, that Colonel Goethals will be offered and will accept the governorship of the zone.

## FATALLY SHOT BY HIS BROTHER

Mother of Boys Says Shooting Was Accidental.

## FLEES ACROSS MISSOURI LINE

Kansas City, Dec. 30.—McKinley Morris, fifteen years old, was shot and fatally injured by his brother, Lawrence, aged sixteen years, at their home in Kansas City, Kan. In a statement to the county prosecutor the mother of the boys said the shooting was accidental.

She said the boys had engaged in a wrestling match, in which the younger boy was the victor and when he released his brother, he ran into the yard. Lawrence, she said, followed and as he ran from the house, he playfully picked up his rifle, which was discharged by accident, the bullet striking his brother in the back.

A warrant for the older boy's arrest was issued, but the police reported that he had fled across the Missouri line.

## FOR THE KANSAS INAUGURAL

Military Parade to Precede the Ceremony at the State House.

Topeka, Dec. 30.—The preliminary program for the Kansas inauguration was completed by the local committee. For the first time in eighteen years the Democrats have a governor and they are planning to make the most of it. Senator Hodges has vetoed the plan for an inaugural ball, so the local committee picked the next best thing and the ceremonies will be held with as much pomp as possible.

Just before the new state officers are sworn in there will be a military parade with several companies of the national guard, a battery and the full military staff and two bands.

## FOUND SKELETON ON SANDBAR

Bones Discovered Near Lexington Were Clothed in a Winter Suit.

Lexington, Mo., Dec. 30.—The skeleton of a man six feet tall, dressed in good clothing, blue flannel double-breasted shirt, shoes and arctic over-shoes, was found on a bar in the Missouri river below here. The body had lain on the bar for months because the river has not been high enough since last February to leave it where it was found. No marks of violence could be found and the man apparently had been drowned. He was apparently thirty years old. One upper tooth was missing.

## SET ON FIRE BY HIS OWN PIPE

Missourian Barely Escaped Death in Flames From a Spark.

Palmira, Mo., Dec. 30.—While Daniel Donovan was walking from his home uptown a spark from his pipe set fire to his clothing. Unable to extinguish the fire, he started to run to an alley to shield himself from the wind but was soon a mass of flames. Thomas Rogers, a neighbor, saw the human torch rush past his house and went to his rescue. He stripped the clothing from Donovan and saved his life.

## Moore Bound Over for Trial.

Columbia, Mo., Dec. 30.—Lee Moore, accused of the murder of his mother, Mrs. Georgia Moore, and his grandmother, Mrs. Mary J. Wilson, with an axe in their home here, was bound over for trial in the circuit court after a preliminary hearing. He was not allowed bond. Love letters written by Moore to various women and one girl of thirteen years were in evidence. Most of the letters told of his expectations soon to have a home of his own. The prosecution contends that he referred to the home of his mother and grandmother.

## Gets Christmas Fortune.

Montgomery, Mo., Dec. 30.—David Engart, formerly driver of a delivery wagon here, as a Christmas present, has been notified that he is one of the heirs of the million-dollar estate of his grandfather. A ninety-nine year lease on valuable property in the heart of New York city has expired and the property reverts back to the Engart heirs. Engart formerly lived in Fort Scott, Kan.

## PERJURES SELF TO SAVE BROTHER

Fugitive From Justice Surrenders to Kansas City Police.

## BREAKS PAROLE IN ILLINOIS.

Kansas City, Dec. 28.—Unwilling, he said, to return to Indianapolis to spend the holidays with his aged mother, while a fugitive from justice, William B. Adams of that city confessed to Chief of Police Griffin here that five years ago he had broken a parole in East St. Louis after perjurying himself to save a younger brother from the penitentiary. In the police holdover he awaits the arrival of officers from the Illinois city.

"I lied, chief, to establish an alibi for my brother, who was tried on a larceny charge," he said. "The lawyers tripped me up and not only my brother went to prison, but the judge sentenced me to one to fourteen years for perjury. He paroled me, but when it became known around the railroad office where I worked as clerk that I had to report to the court every week, I couldn't stand it and fled. I have since worked steadily in San Francisco and other Pacific coast cities and had written my mother in Indianapolis I would return for New Years. I have fought my conscience away from home, but I couldn't face my mother."

Adams is twenty-eight years old. He was scrupulously dressed. Chief Griffin, impressed by his story, said he would make a personal appeal for him to East St. Louis officers.

## AUTO FOOT LATEST AILMENT

St. Louis Specialist Says Motorists Are Becoming Flatfooted.

St. Louis, Dec. 28.—The automobile foot is the latest in St. Louis. The cause is the opposite of that for the policeman's flat foot, which is caused by too much walking. The cause of the automobile foot is too little walking. But the effect is about the same. "When one becomes the owner of an automobile," said a foot specialist, "the infatuation for it is so great that the pleasure is indulged to the limit—the autoist does not walk enough to support the natural weight of the body. "Then, through lack of exercise, surplus weight of the body is taken on, and this extra weight increases, while the strength of the foot decreases."

## POLICE RAID GYPSY CAMP

Kansas City Officers Act After Orders to Move Are Ignored.

Kansas City, Dec. 28.—In an effort to drive the wandering band from the vicinity of Kansas City, the police raided a gypsy camp near the eastern city limits and arrested more than 100 gypsies. The gypsies were herded into picnic wagons and brought to the police station, where the men and women were booked on a charge of vagrancy. The children, many of them babies, were put to the detention home.

The police recently warned the gypsies to move and gave them until Friday to do so. They refused and the raid followed.

Residents near the camp had complained that the band was a nuisance, constantly begging and annoying them in many ways.

## WILSON GIVEN ROYAL WELCOME

Visits Staunton and Parsonage Where He Was Born.

## FIFTY-SIX YEARS OLD TODAY.

Greeted With Enthusiasm and Display All Along His Route—Favors Philippine Freedom—President Elect for Independence After Eight Years.

Staunton, Va., Dec. 28.—President elect Wilson spent the night in the little parsonage where he was born just fifty-six years ago and arose this morning still suffering slightly from the effects of his cold, to take part in the chief program of the jubilee, which will be carried out today.

Virginia welcomed home Woodrow Wilson, the eighth of her native sons to be chosen president of the United States. From the moment the president elect crossed the state line at Alexandria, after he had had a ten-minute glimpse of the national capital, until he reached the little parsonage where he was born, the reception given him was one of great enthusiasm, noisy demonstration and spectacular display.

Escorted by troops of cavalry, militia companies and a torchlight procession, in which practically the whole town participated, the governor and Mrs. Wilson motored through the streets of Staunton to the home of the Rev. Dr. A. N. Frazer, pastor now of the Presbyterian church where the Rev. Joseph R. Wilson, father of the president elect, lived in 1856.

From far and wide native children of Staunton had come to greet their fellow townsman. Except for an informal visit a year ago, Mr. Wilson had not been here since he was three years old. Staunton was not alone in celebrating the arrival in Virginia of the distinguished visitor. Bonfires blazed the way, fireworks shot across the skies and red lights threw a festive glare at all stations along the route, though the train glided by most of them without stopping. Mrs. Wilson stood with her husband on the rear platform of the train and enjoyed the demonstrations, too.

"This is the real president elect," said Mr. Wilson as he introduced her to the crowd at Alexandria.

## Favors Philippine Independence.

Mr. Wilson favors a provisional government for the Philippines for eight years and independence thereafter, according to Representative William A. Jones of Virginia, chairman of the house insular affairs committee, who discussed the Philippine situation with him on the train.

The president elect announced merely that he had talked with Mr. Jones "about the general situation in the Philippines." Representative Jones, however, had no hesitancy in saying that Governor Wilson already had heartily endorsed to him the bill pending in congress introduced by Mr. Jones and providing independence for the islands after eight years.

NO. 180.

## HANAMO TO STAY

NO FOUNDATION FOR RUMOR BELL IS TO PURCHASE

## ALL OWNED IN COUNTY

Manager Filed Sworn Statement That Merger Is bona fide Transaction Without Any Strings.

The consolidation of the Hanamo and Bell telephone lines in Maryville will probably be made about March 1. The Bell line is to be taken over by the Hanamo company. Many new improvements are to be made and a new battery switchboard will be put in so as to have the latest and best service that can be given. It will probably take some time for the Hanamo to put in new phones and arrange the switchboard, but it is probable that it will be done by April 1.

Manager Larry C. Todd of the Hanamo and attorney George Robb Ellison were in Kansas City Monday morning together with Bell officials in regard to arranging the closing details of taking over the Bell property here.

A statement from the Hanamo company to their council was read at the last meeting of the council and is as follows:

In view of certain gossip to the effect that in making the proposed merger of the Hanamo and Bell Telephone companies' exchange, the Hanamo Telephone company will not in good faith buy and become the sole owner of Bell Telephone company's exchange, I desire to submit and file with this letter, verified by my affidavit,

"I desire to state that the contemplated merger of telephone exchanges will be effected, if at all, by the Hanamo Telephone company's purchasing the exchange of the Missouri and Kansas Telephone company, which is one of the associated companies of the telephone system, and paying the value thereof and receiving an equal and unconditional bill of sale for all said property, which will be recorded in this county. There is no agreement between said companies of any sort, verbal or written, expressed or implied, direct or indirect, that the Hanamo Telephone company is not to be the absolute and exclusive owner of said combined exchange. Furthermore, there is no letter or agreement of any kind or character that after said proposed merger is effected, at some later time, the holders of the Hanamo Telephone company will sell out their stock to the Bell system. In other words, the intention and expectation of the Hanamo Telephone company, if the proposed merger is effected, to be in the telephone business in Maryville, owning and operating the telephone exchange as it has in the past.

"The Hanamo Telephone company is a Missouri corporation, its chief office at Maryville. It is capitalized for \$30,000, and the only holders and the number of shares owned by each are as follows: J. H. Todd, 10 shares; Sylvia E. Todd, 10 shares; E. C. Wolfers, 10 shares; Sarah E. Wolfers, 10 shares; H. C. Todd, 10 shares. "We feel that it is a home enterprise, owned and operated by home people, who are interested in Maryville's future as much as you are, and, for any other reason, we are entitled to the same consideration as other citizens of Maryville, and respectfully request the same consideration of the board of aldermen for your property and interest placed in their hands.

Very truly yours,  
"H. C. TODD,  
"Vice President & General Manager of the Hanamo Telephone Company."

Neighbors of Mr. VanAlstine testified to his character and good standing in the community where he resides. County Attorney W. C. Ratcliffe was opposed to the prosecution, and at the close of the hearing made a speech praising the high character of Mr. VanAlstine and deploring the fact that he had been caused so much trouble. A collection was taken for VanAlstine and \$10.27 raised, and he was given a rousing cheer by the people of Villisca as he left for his home.

## VERY EARLY LENT

NOT FOR MANY YEARS HAS SEASON BEEN SO EARLY.

## THE MOON REGULATES IT

Same Old Moon the Lovers Swear by Controls the Closing Hour of Winter Festivities.

Lent will begin at the earliest date next year that it has in ninety-five years. Maryville citizens who end their social activities with the arrival of Lent need only consult the church calendar to be reminded that this winter the "social season" will be one of the shortest on record, as Lent will be ushered in on February 12, the earliest date since 1818.

The reason for the early arrival of that season of the year when the members of the "social whirl" are forced to lay aside their activities is that the ideal or ecclesiastical moon adopted by the churches hundreds of years ago determines the date for Easter, which next year will fall upon March 23, one day later than the earliest possible date upon which Easter may fall. March 22, says the Creston Advertiser-Gazette. The custom established by the churches decrees that Easter shall fall "on the first Sunday after the first full moon after March 21."

"Easter," a church official said, "and with it, of course, the ending of Lent, is a movable feast and is fixed by the ideal moon, adopted by the churches hundreds of years ago, when they were attempting to settle upon the fixed date for Easter."

So the individuals who bemoan the fact that their social duties will be cut short this winter by the arrival of Easter can blame it on the moon, the same moon that the youth of the land usually pick upon to bear witness to some vow breathed in the air of his lady fair.

May Delay Fixing of Sentences for Labor Union Officials—Judge Has Entire Discretion as to Sentences and Bonds—Krum Says 90 Errors Exist.

Indianapolis, Dec. 30.—The thirty-eight labor union officials convicted of conspiracy and of promoting the McNamara dynamite plots throughout the country today will face the possibility of receiving prison terms ranging from any minimum to a possible maximum of thirty-nine and a half years.

From their temporary cells in the county jail, the prisoners, handcuffed between deputy marshals, will be taken before Federal Judge Albert B. Anderson.

Meantime United States Marshal Edward Schmidt has arranged for a special train to leave by a secret route for the federal prison at Leavenworth, Kan. To prevent possible demonstrations on the way to Leavenworth no details as to the time of departure are to be announced, but it is known the train is to be ready to start as soon as possible after the court pronounces judgment on the thirty-eight men, unless some of the prisoners are allowed their liberty on bonds pending appeals.

Motions for setting aside the verdicts and argument may delay the imposing of sentences until tomorrow. District Attorney Charles W. Miller first will ask for judgments on the verdicts and the motions for setting them aside may require a full day's session.

Want Liberty on Bonds.

That every effort would be exerted to gain liberty on bonds while an appeal is pending for some of the labor union officials now in jail, including Frank M. Ryan, president of the iron workers' international union; Olaf A. Tveitmo, a labor leader on the Pacific coast; Herman R. Kline, a former official of the carpenters' union, and some of the many business agents from a score of cities, was announced by Chester H. Krum, counsel for the convicted men.

Mr. Krum has taken active charge of arrangements for appeals to the circuit court of appeals since Senator Kern left for Washington.

The question of bonds pending appeals is to come up after sentences are imposed. The amounts of the bonds are fixed by the court. Unless the prisoners are able at once to furnish the bonds they must remain in prison. It was stated that the soonest any appeal might be argued would be next April.

"We certainly will appeal in the case of each man," said Mr. Krum. "There are about ninety errors upon which we shall base the petition and we are confident of an ultimate reversal."

"This trial never will be reversed, and the men will serve out the punishments imposed by the court," said District Attorney Miller.

Near Home of Conspiracy.

Confined to two tiers of cells, four prisoners to a cell, the men who the government charged engaged in the most widespread conspiracy for the destruction of property in the history of the country, remained within four blocks of the place in which it was charged the conspiracy originated. It was in the office of the International Association of Bridge and Structural Iron Workers, not far from the county jail, where John J. McNamara, secretary of the union, formed the plot and in which dynamite and nitroglycerin were found at the time of his arrest. It was this office from which he was charged with sending Orrie McNamara and Herbert S. Hockin as paid dynamiters and with starting his brother, James B. McNamara, to carry on the destruction at Los Angeles with the loss of life there.

It was also in the iron workers' office that many of the men now convicted were declared to have met to discuss the conspiracy and appropriate the union's funds for the purchase of explosives. All but two of the officers of the union brought from cities scattered from Boston to Los Angeles, are now in jail.

Of the forty officials who stood trial, twenty-three of whom were influential in the councils of the International Association of Bridge and Structural Iron Workers, only two were acquitted. Herman G. Seiffert of Milwaukee and Daniel Buckley of Davenport, Ia.

Although the jury was out forty and one-half hours, it took only the shortest possible time to agree upon the guilt of the thirty-eight. But a single ballot was taken on each of these and in each ballot of the thirty-eight the unanimous verdict was "guilty."

**PEACE OUTLOOK BRIGHTER**

Turkish Delegates Expected to Present Modified Terms.

London, Dec. 30.—Notwithstanding apparently insurmountable difficulties attending the successful issue of the peace conference, the prospects look brighter, more because of the changing atmosphere of the conference than on account of any new fact.

In the first place it is stated on good authority that the Turkish delegates will present today modified terms better calculated to afford a basis for negotiations, and in the second place, the allies appear more anxious to come to real business, if it is at all possible. They seem to be nervously apprehensive that they will be deprived of the fruits of their victories by European intervention.

Four thousand shops are expected to be affected if the order is obeyed.

Crowds of workers thronged the streets outside the building where the meeting was held and cheered when the strike decision was read to them. Hundreds of persons were prevented by the police from parading through the east side to show their approval of the order.

Makes Annual Report.

**CITIZENSHIP FOR PORTORICANS**

Brigadier General Frank McIntyre  
Points Out Need for Many Improvements in Philippines—Urges Bilingual Inspections.

Washington, Dec. 30.—Approval of the extension of vocational education in the Philippines and the immediate grant of American citizenship to those Porto Ricans desiring it, constitute the principal features in the annual report of Brigadier General Frank McIntyre, chief of the bureau of insular affairs. In his annual report, General McIntyre renews the recommendation for congressional action looking to the biennial inspection of the insular possessions by a board of visitors made up of representatives of the executive and legislative branches of the government.

Discussing education in the Philippines and the refusal of congress to extend an appropriation to help in this work, General McIntyre makes no criticism of this attitude on the part of the national legislature, but points out that such financial assistance might "lead to dependence upon this source of revenue and result in complications of a more or less serious character if later this assistance were denied."

"It is estimated," General McIntyre continues, "that probably one-third of the children of school age are now being afforded opportunities to acquire at least an elementary education."

"Improved sanitary conditions, new means of communication, that will open up regions impracticable to reach now, and other public works are not only essential on their own account but will permit educational facilities to be supplied where it is impossible to furnish them now except at unwarranted expense."

As to Porto Rican citizenship, General McIntyre says it is practically the testimony of everyone familiar with conditions on the island territory that the desire for it is the underlying cause of whatever political and social unrest there is on the island.

**WILSON RECEIVES SULLIVAN**

Iowa Democratic Leader Meets Governor En Route From South.

Princeton, N. J., Dec. 30.—With a miniature ship of state in one hand and a basket of Virginia apples in the other, President-elect Wilson came home after an all-day ride from Staunton, Va., his birthplace. As a parting gift, the people of his native town gave him a ship of flowers, and amid cheering bade him godspeed.

At Washington, where the governor's special car stopped an hour, Jerry Sullivan, one of the leaders of the Democracy in Iowa, was received by Mr. Wilson in his study.

Mr. Wilson had invited Mr. Sullivan to join him at Washington and they were together most of the journey from Washington to Princeton Junction. Mr. Sullivan continued on to New York.

"We were just picking up the threads of the situation in Iowa," said Mr. Wilson of his talk with Mr. Sullivan. They had talked over legislative policies he added. He was asked if he had mentioned cabinet appointments to his Iowa visitor, and answered that he had not.

Mr. Sullivan explained that the object of his call was to learn Mr. Wilson's position on the tariff and the trust questions. "We are interested in the west in the destruction of those trusts that mean death to competition," he said.

**TAFT ON WAY TO WASHINGTON**

Voyage From Colon to Key West Was Made in Sixty Hours.

Miami, Fla., Dec. 30.—President and Mrs. Taft, Colonel and Mrs. Goethals and a number of friends arrived off Key West on the battleships Arkansas and Delaware, after a quick trip from Colon and the Panama canal zone.

The presidential party was brought ashore by the government tug Peoria and started north at noon on a special train over the Florida East Coast and the Atlantic Coast Line railroads. They are due in Washington tomorrow morning.

The voyage from Colon to Key West more than 1,100 miles, was made in a little more than sixty hours.

President Taft has announced that he will make no appointments to civil positions under the new administration of the canal zone until he returns to Washington. It is practically assured, however, that Colonel Goethals will be offered and will accept the governorship of the zone.

## FATALLY SHOT BY HIS BROTHER

Mother of Boys Says Shooting Was Accidental.

### FLEES ACROSS MISSOURI LINE

Kansas City, Dec. 30.—McKinley Morris, fifteen years old, was shot and fatally injured by his brother, Lawrence, aged sixteen years, at their home in Kansas City, Kan. In a statement to the county prosecutor the mother of the boys said the shooting was accidental.

She said the boys had engaged in a wrestling match, in which the younger boy was the victor and when he released his brother, he ran into the yard. Lawrence, she said, followed and as he ran from the house, he playfully picked up his rifle, which was discharged by accident, the bullet striking his brother in the back.

A warrant for the older boy's arrest was issued, but the police reported that he had fled across the Missouri line.

### FOR THE KANSAS INAUGURAL

Military Parade to Precede the Ceremony at the State House.

Topeka, Dec. 30.—The preliminary program for the Kansas inauguration was completed by the local committee. For the first time in eighteen years the Democrats have a governor and they are planning to make the most of it. Senator Hodges has vetoed the plan for an inaugural ball, so the local committee picked the next best thing and the ceremonies will be held with as much pomp as possible.

Just before the new state officers are sworn in there will be a military parade with several companies of the national guard, a battery and the full military staff and two bands.

### FOUND SKELETON ON SANDBAR

Bones Discovered Near Lexington Were Clothed in a Winter Suit.

Lexington, Mo., Dec. 30.—The skeleton of a man six feet tall, dressed in good clothing, blue flannel double-breasted shirt, shoes and arctic over shoes, was found on a bar in the Missouri river below here. The body had lain on the bar for months because the river has not been high enough since last February to leave it where it was found. No marks of violence could be found and the man apparently had been drowned. He was apparently thirty years old. One upper tooth was missing.

### SET ON FIRE BY HIS OWN PIPE

Missourian Barely Escaped Death in Flames From a Spark.

Palmira, Mo., Dec. 30.—While Daniel Donovan was walking from his home uptown a spark from his pipe set fire to his clothing. Unable to extinguish the fire, he started to run to an alley to shield himself from the wind but was soon a mass of flames. Thomas Rogers, a neighbor, saw the human torch rush past his house and went to his rescue. He stripped the clothing from Donovan and saved his life.

### Moore Bound Over for Trial.

Columbia, Mo., Dec. 30.—Lee Moore, accused of the murder of his mother, Mrs. Georgia Moore, and his grandmother, Mrs. Mary J. Wilson, with an axe in their home here, was bound over for trial in the circuit court after a preliminary hearing. He was not allowed bond. Love letters written by Moore to various women and one girl of thirteen years were in evidence. Most of the letters told of his expectations soon to have a home of his own. The prosecution contends that he referred to the home of his mother and grandmother.

### Gets Christmas Fortune.

Montgomery, Mo., Dec. 30.—David Engart, formerly driver of a delivery wagon here, as a Christmas present, has been notified that he is one of the heirs of the million-dollar estate of his grandfather. ## PERJURES SELF TO SAVE BROTHER

Fugitive From Justice Surrenders to Kansas City Police.

### BREAKS PAROLE IN ILLINOIS.

Kansas City, Dec. 28.—Unwilling, he said, to return to Indianapolis to spend the holidays with his aged mother, while a fugitive from justice, William B. Adams of that city confessed to Chief of Police Griffin here that five years ago he had broken a parole in East St. Louis after perjurying himself to save a younger brother from the penitentiary. In the police holdover he awaits the arrival of officers from the Illinois city.

"I lied, chief, to establish an alibi for my brother, who was tried on a larceny charge," he said. "The lawyers tripped me up and not only my brother went to prison, but the judge sentenced me to one to fourteen years for perjury. He paroled me, but when it became known around the railroad office where I worked as clerk that I had to report to the court every week, I couldn't stand it and fled. I have since worked steadily in San Francisco and other Pacific coast cities and had written my mother in Indianapolis I would return for New Years. I have fought my conscience away from home, but I couldn't face my mother."

Adams is twenty-eight years old. He was scrupulously dressed. Chief Griffin, impressed by his story, said he would make a personal appeal for him to East St. Louis officers.

### AUTO FOOT LATEST AILMENT

St. Louis Specialist Says Motorists Are Becoming Flatfooted.

St. Louis, Dec. 28.—The automobile foot is the latest in St. Louis. The cause is the opposite of that for the policeman's flat foot, which is caused by too much walking. The cause of the automobile foot is too little walking. But the effect is about the same. "When one becomes the owner of an automobile," said a foot specialist, "the infatuation for it is so great that the pleasure is indulged to the limit—the autoist does not walk enough to support the natural weight of the body."

"Then, through lack of exercise, surplus weight of the body is taken on, and this extra weight increases, while the strength of the foot decreases."

### POLICE RAID GYPSY CAMP

Kansas City Officers Act After Orders to Move Are Ignored.

Kansas City, Dec. 28.—In an effort to drive the wandering band from the vicinity of Kansas City, the police raided a gypsy camp near the eastern city limits and arrested more than 100 gypsies. The gypsies were herded into picnic wagons and brought to the police station, where the men and women were booked on a charge of vagrancy. The children, many of them babies, were sent to the detention home.

The police recently warned the gypsies to move and gave them until Friday to do so. They refused and the raid followed.

Residents near the camp had complained that the band was a nuisance, constantly begging and annoying them in many ways.

### Dies in Want; Had \$5,000 Cash.

## WILSON GIVEN ROYAL WELCOME

Visits Staunton and Parsonage Where He Was Born.

### FIFTY-SIX YEARS OLD TODAY.

Greeted With Enthusiasm and Display All Along His Route—Favors Philippine Freedom—President Elect for Independence After Eight Years.

Staunton, Va., Dec. 28.—President elect Wilson spent the night in the little parsonage where he was born thirty-six years ago and arose this morning still suffering slightly from the effects of his cold to take part in the chief program of the jubilee, which will be carried out today.

Virginia welcomed home Woodrow Wilson, the eighth of her native sons to be chosen president of the United States. From the moment the president elect crossed the state line at Alexandria, after he had had a ten-minute glimpse of the national capital, until he reached the little parsonage where he was born, the reception given him was one of great enthusiasm, noisy demonstration and spectacular display.

Escorted by troops of cavalry, militia companies and a torchlight procession, in which practically the whole town participated, the governor and Mrs. Wilson motored through the streets of Staunton to the home of the Rev. Dr. A. N. Frazer, pastor now of the Presbyterian church where the Rev. Joseph R. Wilson, father of the president elect, lived in 1856.

From far and wide native children of Staunton had come to greet their fellow townsman. Except for an informal visit a year ago, Mr. Wilson had not been here since he was three years old. Staunton was not alone in celebrating the arrival in Virginia of the distinguished visitor. Bonfires blazed the way, fireworks shot across the skies and red lights threw a festive glare at all stations along the route, though the train glided by most of them without stopping. Mrs. Wilson stood with her husband on the rear platform of the train and enjoyed the demonstrations, too.

"This is the real president elect," said Mr. Wilson as he introduced her to the crowd at Alexandria.

Favors Philippine Independence.

Mr. Wilson favors a provisional government for the Philippines for eight years and independence thereafter, according to Representative William A. Jones of Virginia, chairman of the house insular affairs committee, who discussed the Philippine situation with him on the train.

The president elect announced merely that he had talked with Mr. Jones "about the general situation in the Philippines." Representative Jones, however, had no hesitancy in saying that Governor Wilson already had heartily endorsed to him the bill pending in congress introduced by Mr. Jones and providing independence for the islands after eight years.

James R. Keene Seriously Ill.
